

EMEK

PRESS RELEASE _ 27.02.2024

EMEK manufactured the tower of the first wind turbine in Greece of the German company **VENSYS Energy AG**, which has successfully been installed at the Treis Vryses wind park in Fokida with a total capacity of 4.1 MW.

The wind turbine is a VS115 type with a maximum power of 4.1MW, with tower height 72.5m, which consists of 4 sections as well as its foundation.

We thank VENSYS Energy AG for the trust and hope for new equally excellent collaborations.
